## Latino Staff and Faculty Association Survey

The **Latino Staff and Faculty Association (LSFA)** is a professional organization dedicated to empower, support, and assist in the professional development, advancement, and upward mobility of, primarily Latino, staff and faculty through networking and education at the UCLA campus.

Over the past few months the newly elected board has developed plans for moving into the 2018/19 year with an emphasis on building a strong, active, and politically minded Latina/o community. The focus will be to create opportunities for our membership to meet new people, to build a strong professional profile, and to maximize the resources that UCLA has to offer.

We invite you to participate in the **LSFA Survey** to subscribe or re-subscribe to our listserv; we want to know who is still on campus and welcome new members. The survey questions are designed to best guide us in how we approach our work. Please participate in our survey by **Monday, September 10**. The survey will take approximately 2 minutes: [LSFA Survey](#).
